## 1 Overview of the Vienna Tourist Board

The Vienna Tourist Board is the official destination marketing and management organization for the City of Vienna. Established in 1955, the board's mandate includes representing the tourist interests of the city, promoting the destination worldwide, assisting private visitors and meeting participants with information and services, contributing to tourism measures instigated by the municipality, and promoting an understanding among local residents for the tourism industry and its economic, cultural and social significance.

### 1.1 MARKETING AND SERVICE ON A NON-PROFIT BASIS

The Vienna Tourist Board's Destination Marketing department specifically targets those groups which make the greatest contributions towards achieving the goals set out in the Visitor Economy Strategy. The Vienna Tourist Board and its teams work closely with tour operators and gate keepers (luxury segment), maintain close ties with top international media representatives, help meeting organizers plan and prepare meetings and incentives in Vienna and offer information and hotel booking services for international travelers. In 2026, the main focus will be on 12 markets (primarily Germany, Switzerland, the United Kingdom, Spain, France and Italy, as well as the USA, Canada, Arab countries, Japan, China and South Korea). In addition, partnerships relating to air and rail service development will also continue to be pursued with a view to enhancing Vienna's links to international rail and air travel networks. The luxury travel and meetings industry segments are being addressed globally as well. The Vienna Tourist Board also provides visitor services in Vienna from its main tourist information center behind the Vienna State Opera, a welcome points at Vienna International Airport, as well as several mobile tourist info points. In addition, the Vienna Tourist Board is involved in destination management activities in cooperation with stakeholders from various areas with a view to further improving the city for visitors and local residents alike.

### 1.2 LEADING THE WAY: PRESIDENT, TOURISM COMMISSION AND DIRECTOR OF TOURISM

Barbara Novak, Deputy Mayor and Executive City Councillor of Finance, Business, Labour, International Affairs and Digital Innovation, has been President of the Vienna Tourist Board since June, 2025. Norbert Kettner was appointed Managing Director (Director of Tourism) in September 2007. The President is nominated by the Vienna city government, and the Managing Director by the [Tourism Commission](#) (the supervisory board) on the President's recommendation. The Tourism Commission consists of the President, two Vice Presidents, and 15 other members, most of whom are appointed by the municipality. It is responsible for the budget and for other essential matters.

### 1.3 FINANCING OF THE VIENNA TOURIST BOARD

The budget for 2026 is EUR 33.5 million. Before the pandemic, a local accommodation tax of 3.2% of net room rates, levied under Vienna's Promotion of Tourism Act, accounted for 85% of the total.

Due to the shortfall in local tax revenue due to the Covid-19 pandemic, an agreement was reached with the City of Vienna under which it agreed to contribute EUR 22m. For 2026, funding from the City of Vienna, which is adjusted in line with inflation, will amount to EUR 26.6 million, which accounts for about 79.51% of the Vienna Tourist Board's total budget. The remainder comes from the Vienna Chamber of Commerce and the Board's own revenues.

## 2 The Vienna Tourism Industry and its Economic Importance

For many years, the greater Vienna area (City of Vienna plus surrounding municipalities) has been ranked amongst the top 10 cities in Europe in the annual City Destinations Alliance (formerly: European Cities Marketing) benchmarking report. The year 2025 was the most successful year yet for tourism in Vienna: between January and December 2025 Vienna posted 20.1 million visitor overnights, which represented a 6% year-on-year increase on 2024 and surpassed the previous record set in 2019 by 14%. In 2025 net revenue from overnights at Vienna's commercial accommodation providers amounted to EUR 1.46 billion – up 6% on 2024 and up 43% on 2019.

Economic studies show that the annual induced economic impact usually generated by tourism in the core Vienna area (direct and indirect benefits) amounts to some EUR 4.6 billion (reporting year 2023). This represents approximately 4.9% of Vienna's gross regional product, and approximately one Fifth of the induced economic impact from tourism for the whole of Austria.

In addition to the 4.6 billion euros in direct value added in Vienna, tourism in Vienna generates 600 million euros in value added for the rest of Austria (excluding Vienna). Tourism in Vienna ranked second among all of Austria's federal provinces (behind Tyrol and ahead of Salzburg) – in terms of both direct and induced economic impact (EUR 5.3 billion), as well as tourist spending (EUR 6.8 billion in Vienna).

Tourism is an important source of jobs for Vienna: according to the Tourism Satellite Account by Statistics Austria and the Austrian Institute of Economic Research Vienna (WIFO) – which distinguishes between the two sectors of tourism and leisure industries – the industry stands for 114,800 full-time jobs (reporting year 2023).

The ongoing representative survey conducted by the Vienna Tourist Board on local residents' acceptance to tourism shows that locals are overwhelmingly supportive of tourism – with 9 out of 10 people living in Vienna seeing tourism as positive for the city (3,600 respondents in 2025).

Visitors to Vienna (core area) come from all over the world. In 2025, 83% of overnight stays were accounted for by visitors from abroad. Main markets before the crisis in 2019 and 2025, measured in terms of total overnights, are:

| #  | 2019           |     | 2025                       |     |
|----|----------------|-----|----------------------------|-----|
| 1  | Germany        | 19% | Germany                    | 18% |
| 2  | Austria        | 17% | Austria                    | 17% |
| 3  | USA            | 6%  | USA                        | 6%  |
| 4  | Italy          | 5%  | Italy                      | 5%  |
| 5  | United Kingdom | 4%  | United Kingdom             | 4%  |
| 6  | Spain          | 4%  | Spain                      | 3%  |
| 7  | China          | 3%  | France, Monaco             | 3%  |
| 8  | France         | 3%  | Poland                     | 3%  |
| 9  | Russia         | 3%  | Switzerland, Liechtenstein | 2%  |
| 10 | Switzerland    | 3%  | Romania                    | 2%  |

## 2.1 OPTIMUM TOURISM: THE EVOLUTION OF THE VISITOR ECONOMY STRATEGY

The Vienna Tourist Board presented its updated Visitor Economy Strategy in April 2025. Named “Optimum Tourism”, this latest phase will focus on “good growth” and balancing the needs of locals and visitors more closely than ever.

The goal is to achieve the kind of growth that strengthens the city’s qualities, rather than wearing them away. Grouped according to three core objectives, the strategy centers on cornerstones for achieving optimal tourism: the “sweet spot” refers to optimal acceptance by residents and visitors alike – the goal here being to maintain a healthy balance. The tourism strategy also focuses on guests who match the “desired visitor” profile. In future, two thirds of visitors will represent this demographic: i.e. leisure travelers with an interest in art and culture, business travelers attending congresses or company meetings, and luxury guests in the high-end sector.

The third objective is for the meeting segment to contribute at least one out of ten overnight stays in Vienna – a rate that should remain stable over the long term. After all, meeting visitors fit seamlessly into the city and spend on high-quality offerings. To achieve these objectives and ensure quality growth, the Vienna Tourist Board is taking a Destination Stewardship approach that brings together the city’s administrators, hotels, restaurants, cultural and leisure providers, the meeting industry, and other Visitor Economy players to tackle challenges at their respective decision-making levels. The decisions themselves will be taken on the basis of series of standardized – and publicly available – metrics.

Since April 2025, Vienna has been part of the UN Tourism International Network of Sustainable Tourism Observatories (INSTO). This is a collection of institutions, often at the destination level, that continuously monitor tourism developments through data and metrics, analyze economic, environmental and social impacts, promote transparent exchange, and pursue a path towards greater sustainability. Aligned with the guidelines set out by UN Tourism, Vienna's [Sustainable Destination Observatory](#) is at the heart of collaboration between all of the stakeholders in the city – and beyond. It will serve as a compass that guides the Vienna Tourist Board's strategic activities.

## 2.2 WHAT SURVEYS AND STATISTICS TELL US ABOUT THE "AVERAGE VISITOR"

According to the 2023/2024 Visitor Survey (around 2,400 respondents), the typical visitor to Vienna is 47.9 years old, a salaried employee, well educated, usually with one other person. Half of the guests (50%) were visiting for the first time, around 20% had already been to Vienna once before and another 20% were returning to Vienna for at least the third time. 78% of visitors named sights and culture as one of the reasons for choosing the destination. 39% of visitors travel to Vienna by air, 30% by train, while 24% travel by car and 4% by bus. A small number of visitors reached the city by another means of transportation – with alternatives ranging from motorhomes to yachts and bicycles. What do visitors to Vienna do? The list is topped by sightseeing (73%) followed by visiting museums and exhibitions (47%), walking through the city (41%), dining at restaurants (33%), enjoying typical food and drink from the region (25%) and going to coffeehouses (19%).

## 2.3 FROM LUXURY HOTELS TO SIMPLE PENSIONS: 84,600 BEDS

Vienna offers a wide range of overnight accommodation, from palaces and international hotel chains to family-run establishments. Palais Württemberg for example has become the 5-star superior Hotel Imperial, and the palace of Archduke Leopold Salvator is now the Austria Trend Hotel Schloss Wilhelminenberg. The international chains include familiar names such as The Ritz-Carlton, InterContinental, Hilton, Anantara, Marriott, Le Méridien, Radisson, Renaissance, Mercure, Holiday Inn or NH to family-run hotels such as the 5-star superior Hotel Sacher, the 4-star Hotel Stefanie and the 4-star Altstadt Vienna. Of the approximately 84,600 beds in 450 hotels and pensions (including seasonal hotels open only in summer), around 60% are in the luxury or premium 4 and 5-star category. (Data as of May 31<sup>st</sup>, 2025) In 2025, the average length of stay was 2.34 nights, and average bed occupancy around 55%. This is equivalent to a room occupancy of around 71%. Over the entire year Vienna has the highest bed occupancy rate in Austria.

## 2.4 MEETINGS, CONGRESSES, INCENTIVES

Congresses, corporate meetings and incentives are an important part of Vienna's tourism industry. The 2024 Vienna meetings industry statistics showed that the 6,619 meetings (congresses and corporate events) held during the year represent a 3% increase over 2023. Participant numbers at these meetings amounted to around 671,000 in 2024. Together they generated around 1,999,000 overnights (2019: 1.6 million) The meeting industry is one of the main sources of revenue for the city's visitor economy. Congress participants generate significantly higher revenues than leisure tourists. At an average of EUR 560, their daily expenditure is about twice as high as that of the average visitor to Vienna.

The city's outstanding meeting infrastructure, the high service standards of meeting service providers (travel agents caterers, interpreters, etc. specializing in meetings) and its cultural appeal all help make Vienna one of the top destinations for international congresses and meetings. The statistics published by the two leading organizations – the International Congress and Convention Association (ICCA) and the Union of International Associations (UIA) – regularly show Vienna in a top position among cities around the world. According to the latest 2024 statistics from the International Congress and Convention Association (ICCA), Vienna (154 meetings) was ranked first worldwide. Lisbon (153) and Singapore (144) took second and third place, respectively. Barcelona (142), Prague (131), Paris (124), Seoul (124), Bangkok (115), Rome (114), and Athens (111) completed the top ten. And in the latest UIA congress ranking for 2024, Vienna placed second worldwide (239 meetings). The list was topped by Brussels (388). After Vienna, the rest of the top ten was made up of Seoul (180), Barcelona (159), Tokyo (148), Rome (142), Lisbon (140), Madrid (113), Paris (110) and Dubai (109).

## 3 The Departments of the Vienna Tourist Board

The Vienna Tourist Board is organized into five departments and one staff unit. The following paragraphs describe the responsibilities of these permanent entities. The Vienna Tourist Board also makes use of interdepartmental task forces to ensure that the different departments can pool their resources to meet new challenges and respond quickly to changing circumstances.

### 3.1 DESTINATION MANAGEMENT: STRATEGIC DESTINATION DEVELOPMENT

Destination management means targeted promotion of local partner networking, including the target group of residents, and actively addressing the important strategic challenges that city tourism will face over the coming years.

This department is responsible for the development of the current Destination Strategy, market and trend research, statistics and forecasts as well as visitor and resident surveys. The scope of the department's responsibilities also extends to the organization of industry events such

as the annual Tourism Conference, and training initiatives such as the [Vienna Experts Club](#). The club's members, primarily consisting of employees of hotels in Vienna and incoming travel agencies, are given free training on Vienna as a tourism product. The department's Industry Services team is the central point of contact for Vienna's tourist industry, and accommodation providers in particular. The Vienna Experts Club currently has around 700 members.

The task of the [Vienna Tourist Board's visitor services](#) (assigned to this department) range from providing information about your stay in Vienna and hotel information to handling complaints. At the central tourist information office on Albertinaplatz, visitors can obtain information in person in eight languages as well as brochures in up to ten different languages, while a commercial partner sells tickets for cultural events and sightseeing tours. The Vienna Tourist Board's information counter at Vienna International Airport is also open every day. During the warmer months of the year, mobile tourist information points (Vienna-branded cargo bikes) provide visitors and residents with advice about neighborhoods outside the first district.

### 3.2 BRAND MANAGEMENT & B2C MARKETING: INTERNATIONAL MARKETING OF THE DESTINATION

The Brand Management & B2C Marketing department is responsible for strategic and operational management of Vienna as a tourism brand as well as for developing and implementing the Tourist Board's corporate identity. It also plans and realizes integrated, innovative B2C campaigns for the international travel market using a contemporary communications mix. Central image and video management, production of promotional materials and giveaways, as well as cooperation campaigns with strategic partners, also come under the department's remit.

The goal of B2C Marketing is to anchor the [Vienna brand](#) in target audiences' minds and inspire prospective visitors to come to the city. This is accomplished in 360° communications campaigns as well as data-driven contacts via digital channels, as well as personal communication and inspiration on social media. The team is also responsible for central image and [video management](#) as well as running the [photo.vienna.info](#) and [footage.vienna.info](#) image and video databases, which contain around 1,000 images and one terabyte of video footage. The department also handles production of all the Vienna Tourist Board's [advertising materials and information tools](#). Advertising sales are an important factor in the production of information materials, as they generate revenue which significantly contributes to the production costs for many publications (such as the city map in eight languages).

In 2016 a new [brand strategy](#) was developed in collaboration with Munich's Nymphenburg Group using insights gained from neuromarketing. Encouraging Enjoyment was defined as the brand core, and – based on a comprehensive analysis of the target group – five brand assets of decisive importance to the success of Vienna's destination brand were identified. The strongest

of these is Vienna's imperial heritage, followed by its music and cultural attractions, its culinary culture, aspects of Vienna's status as a modern, livable city, and its healthy balance of urban ambience and green spaces. The advertising strategy implemented worldwide by the Vienna Tourist Board since October 2016 is based on these brand assets.

International target audiences: in its international market development activities, the Vienna Tourist Board focuses on identifying and reaching out to prospective visitors to Vienna who are most likely to find it appealing as a quality destination with a premium offering and respond best to its sustainable development ambitions, and who can make a contribution to the city's qualities through their cultural diversity and their behavior. Using pre-defined quality criteria, a target group was identified who can either be reached directly or via multipliers, consisting of people for whom Vienna is most relevant as a travel destination and who match the criteria. In terms of Limbic types, they are Open connoisseurs and Performers. Additionally, the special segments of luxury, LGBT and business are targeted.

### 3.3 MEDIA HOUSE: MEDIA EXPERIENCE OF VIENNA FROM CURATION TO MEDIA RELATIONS

The Media House department (comprising the Content Creation, Channel Management and International Media teams) brings together the organization's content creation activities and its channel and media-specific variations.

The [www.vienna.info](http://www.vienna.info) website acts as a central information and inspiration platform for visitors to the city and residents alike, expressing the spirit of the city in 12 languages. Additional features including an [online booking service](#) for Vienna's accommodations, a comprehensive [event database](#), detailed information on key locations in the capital and customizable travel itineraries complete the picture.

In 2020 the Vienna Tourist Board established another innovative channel with a wide reach: The digital city guide [ivie](#) includes more than 1,000 locations, as well as routes for numerous city walks, an event database and details of around 500 cafés, bars and restaurants. Facts and figures – and in some cases out-of-the-ordinary stories – bring the individual entries to life, helping visitors connect with some of Vienna's lesser-known sides. Among the app's other features is a function that shows how busy the location in question is. Users can also purchase the Vienna City Card through the ivie app.

Usually sent out once a month, the German and English versions of the Vienna Tourist Board [newsletter](#) keep fans all over the world up to speed on all the latest that Vienna has to offer.

The department's media relations managers are the contacts for international media and also host international media representatives, who the Vienna Tourist Board assists with their

research in Vienna. In this way, journalists from print and online media as well as radio, TV and film teams and influencers receive efficient support with their research and filming work. New topics and offerings in Vienna are presented in defined markets at press events and through regular press releases. The media team also provides access to extensive research texts on a wide variety of themes ranging from architecture to Viennese wine. Each normal year, the Vienna Tourist board is able to verify up to 3,000 media reports on Vienna worldwide which have been initiated by this intensive media work.

The Media House department also plays a leading role in creating the content featured in the Vienna Tourist Board's printed materials. From new magazine [Vienna Intl.](#) to the city maps, its goal is always to produce high-quality content that is both inspiring and informative.

### 3.4 B2B MANAGEMENT

The B2B Management department comprises experts from the Vienna Convention Bureau, International B2B Relations and B2B Marketing Communications teams. The Convention Bureau's principal task is the global acquisition of congresses, corporate meetings and incentives and to provide comprehensive support for meeting organizers. As the main contact for the travel industry, the International B2B Relations team acts as an interface between the Vienna travel industry and its international counterparts. Its focus is on planning and organizing marketing measures for defined incoming tourist markets. The B2B Marketing Communications team is responsible for B2B communications initiatives targeting the travel, international mobility and meeting industry sectors. Market development is focused on the premium target group, positioning Vienna above all as a city of art and culture, as well as advancing air and rail service development, and the luxury travel segment.

The Vienna Convention Bureau (VCB) regularly organizes Sales Calls and represents the meeting destination at specialist workshops and fairs, usually including IMEX Frankfurt, IMEX America in Las Vegas and IBTM World Barcelona. In Vienna, it assists meeting organizers at site inspections and famtrips. Vienna is represented at around 40 specialist workshops each year and supports hundreds of meeting organizers in the city. The VCB website [meeting.vienna.info](http://meeting.vienna.info) provides detailed information on Vienna as a meeting destination. It publishes the annual Meetings Industry Report as well as the brochure Meeting in Vienna, which summarizes Vienna's assets for conference organizers at a glance in five languages.

The new Meeting Destination Vienna communications concept was launched in 2019. Aligned to the brand strategy for the destination as a whole, in terms of content it draws on the high quality of service and expertise offered by Vienna's meetings industry. The central communicative idea runs through all the elements of the brand: 'Vienna makes it easy for you' – to plan, organize and enjoy an event. The target audience is addressed directly – one of the

messages from Vienna is 'Meet exceptional perspectives through local eyes'. The feeling of people meeting and interacting with one another is encapsulated in the slogan, which, in turn, is a smart extension of the umbrella brand for Vienna. 'Vienna Now. Forever' has been extended to 'Meeting Destination Vienna. Now. Together'.

The International B2B Relations team is responsible for making sure that Vienna is represented in international travel industry offerings. Each year, its staff represent Vienna on up to one hundred business trips to industry and public events (workshops, fairs, sales calls, etc.) and organize participation in these events for numerous tourism partners. In Vienna, they assist hundreds of representatives from the international travel industry each year.

The scope of the department's responsibilities also extends to managing the [Vienna Experts Club International](#) which is a customer loyalty program for the global travel industry. It currently has around 16,000 members in 90 different countries.

Servicing the Luxury Guest target audience is primarily accomplished through targeted marketing measures which are used to forge closer contacts with gatekeepers and raise awareness of Vienna as a destination among luxury travelers. The Vienna Tourist Board is a member of the Virtuoso and Serandipians by Traveller Made luxury travel networks.

Under the Air Service Development agreement, the Vienna Tourist Board and Vienna International Airport have been working together since 2016 on pioneering projects to bring new direct flights to the capital from major cities all over the world. Rail service development is another key aspect for nearby markets. This includes work with Austrian National Railways (ÖBB) and Deutsche Bahn.

### 3.5 CORPORATE PUBLIC RELATIONS: THE VIENNA TOURIST BOARD IN THE PUBLIC EYE

Corporate Public Relations is the executive department responsible for the way in which the Vienna Tourist Board is perceived by the general public. The department's task is to keep journalists, industry representatives and (through media relations) also the city's residents informed both of the Vienna Tourist Board's activities and tourism-related developments in the city with an emphasis on the economic, cultural and social significance of tourism. In regular [press releases](#) and press conferences as well as in its regularly published [industry newsletter](#), the Corporate PR team reports on the latest tourist figures, marketing highlights, congress acquisitions and trade events. The department is also charged with handling media requests, producing the [annual report](#) and writing articles for trade publications.

### 3.6 COMMERCIAL SERVICES: ORGANIZATIONAL BACKBONE OF THE VIENNA TOURIST BOARD

As the organizational backbone of the Vienna Tourist Board, the Commercial Services department is responsible for a wide range of areas, from HR, controlling and accounts, to employer branding and organizational development. Cooperations and regional partnerships are also the responsibility of this department, alongside IT, logistics and facility management. The goal of the department is to ensure smooth processes tailored to the needs of users, especially through the use of digitalization and automation.

The Commercial Services department is also in charge of the Vienna Film Incentive, which promotes international film productions in the city. Of central importance for Vienna as a tourist location, they are an important source of value creation for Vienna's Visitor Economy and a key driver of the city's continued internationalization. Sustainability is also anchored in the department as a core strategic focus – it is where the various threads come together as regards the management and coordination of internal company measures and projects as well as formally recording and documenting them.

Ongoing development of the [Vienna City Card](#), the Vienna Tourist Board's official visitor card, also falls under the responsibility of this department. The Vienna City Card entitles holders to numerous discounts as well as unlimited travel on the Wiener Linien public transportation network. It is also available with add-ons, including transfer to and from the airport and hop-on hop-off bus tours. The Vienna City Card was certified in accordance with the Austrian *Umweltzeichen* ecolabel in November 2022, making it the world's first green visitor card.
